Step 1 — How to Add Tags to a Guide

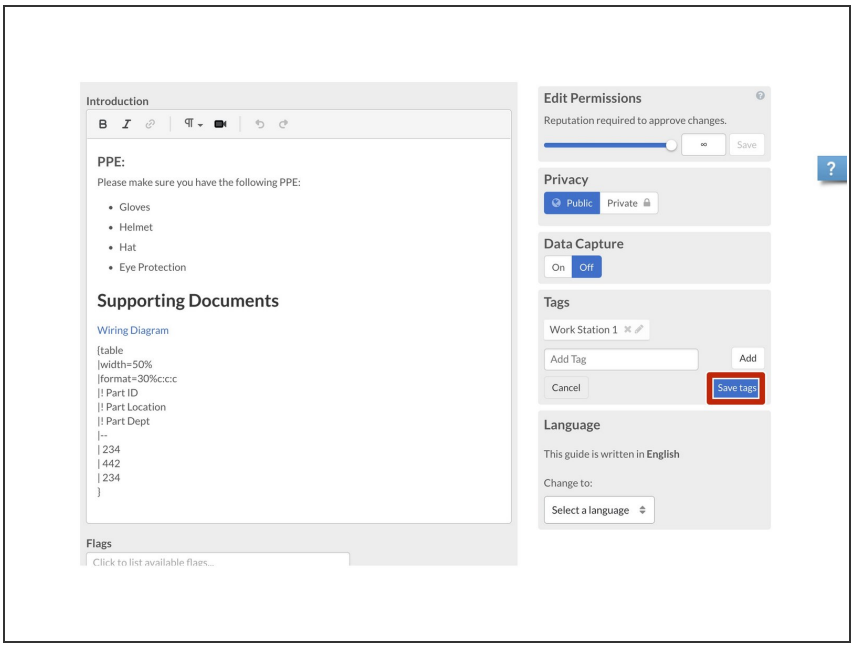

- Begin on the guide to which you want to add tags.
- Click on the **Edit** button in upper-right of the page, beneath the site header.
- Scroll down to the **Tags** section, in the lower-right of the page.

Step 2

- In the **Add Tag** field, type in the tag that you want to attach to the guide.
- When finished typing in the tag, click **Add**.

Step 3

- At this point, you can add another tag, delete the tag you created, or edit the tag you created.
- When you have finished editing the tags, click on the **Save Tags** button.
