INTRODUCTION

This guide demonstrates how to create a link to a specific section on a Wiki page.

For additional information about creating links on Wiki Pages, see the Wiki Links Help Page.

Step 1 — Navigate to the Section on the Page

- Open the Wiki Page to which you want to link.

- Navigate to the appropriate section.

- Move the curser over the end of the header for the section and click on the **Paragraph** icon that appears.

  - ⓘ This updates your URL to provide a link to that specific section of this page.

- Copy the URL.

Step 2

- Open the page where you want to create the link.

- Select the text that will become the link.

- Click on the link icon.
  - This will prompt a modal to create your link.

- Paste in your copied URL in the top field.

- Click **Insert Link**.

- Test your new link by clicking on it.
