

How to Create a New Flag

This guide demonstrates how to create a new custom flag for your Dozuki site.

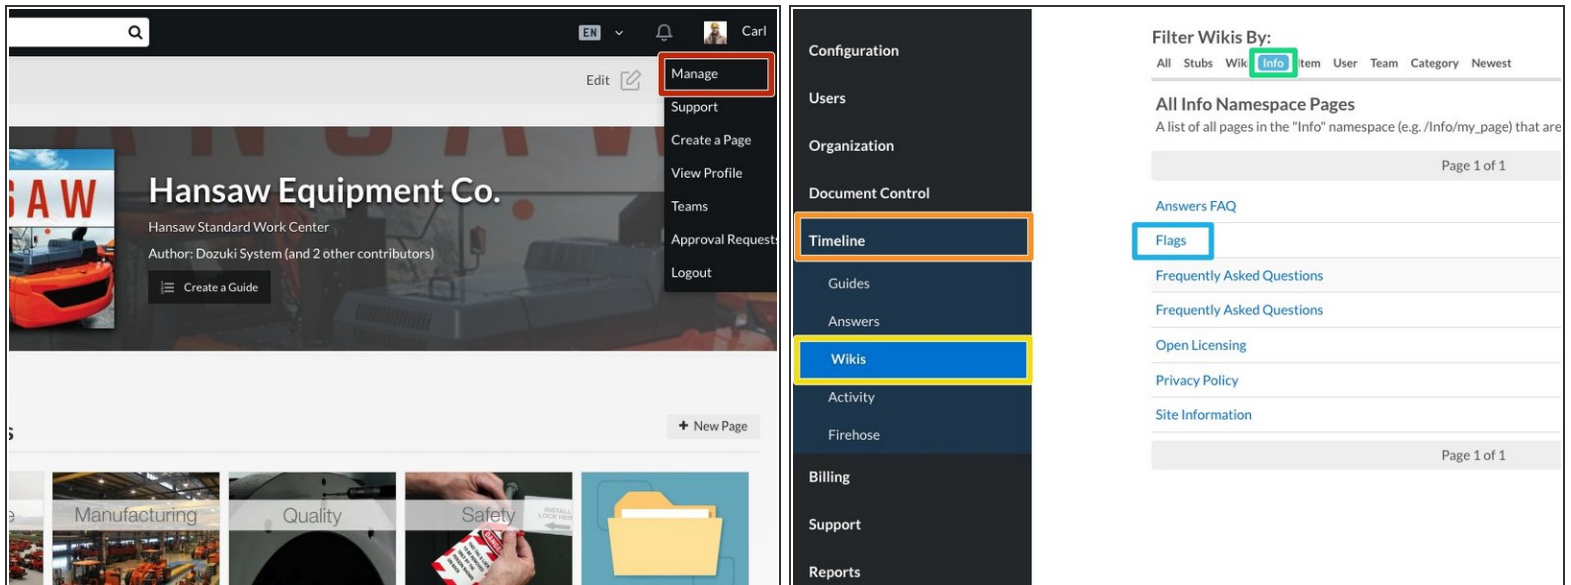

Written By: Dozuki System

INTRODUCTION

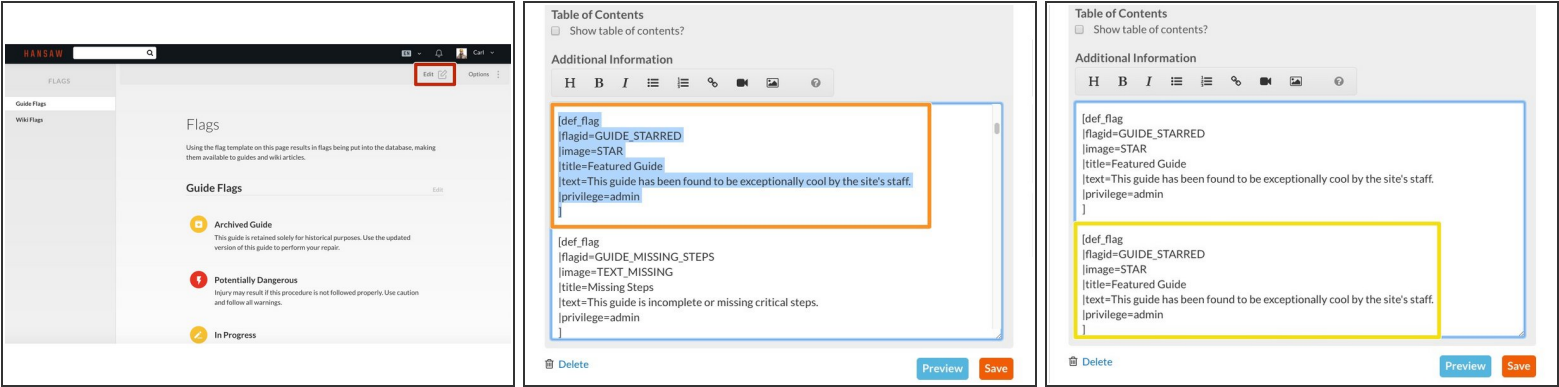

This guide demonstrates how to create a new custom flag for your Dozuki site.

Step 1 — Open Flag Info Page

- Navigate to yoursite.dozuki.com/info/flags or follow the steps below:
- Click on your username on the far-right of the site header and select **Manage** from the drop-down menu.
- Select **Timeline** from the sidebar on the left side of the page.
- Select the **Wikis** subsection.
- Select the **Info filter** at the top of the page.
- Click on the link to the **Flags** page.

Step 2 — Copy Flag Syntax

- Click **Edit** in the top-right of the page, just beneath the site header.
- **Copy** the wiki syntax code for an existing flag.
 - ⚠ **Note:** Wiki flags (flagids that start with WIKI_) can only be used on wiki articles, and guide flags (flagids that start with GUIDE_) can only be used on guides.
- **Paste** the copied code below the original flag code.

Step 3 — Modify New Flag Code

- **flagid:** This is the unique id for your new flag. It should be written in GUIDE_<ID TITLE> or WIKI_<ID TITLE> format and in all caps.
- **image:** This is the icon that will appear as the flag image. You must select from the available flag images.
 - ⓘ See [this table](#) for available images and corresponding image title code.
- **title:** This will be the display title for your flag. Users will see this title, so be sure you choose a concise, clear title.
- **text:** This summarizes the purpose for the flag.
- **privilege:** This sets the user privilege required to apply this flag to a guide page.
 - ⚠ **NOTE:** *This only applies to GUIDE_ flags.*
- Click **Save** to create your new flag.

Step 4 — View & Test Your New Flag
