# How to Disable Release Titles

How to disable

Written By: Dozuki System

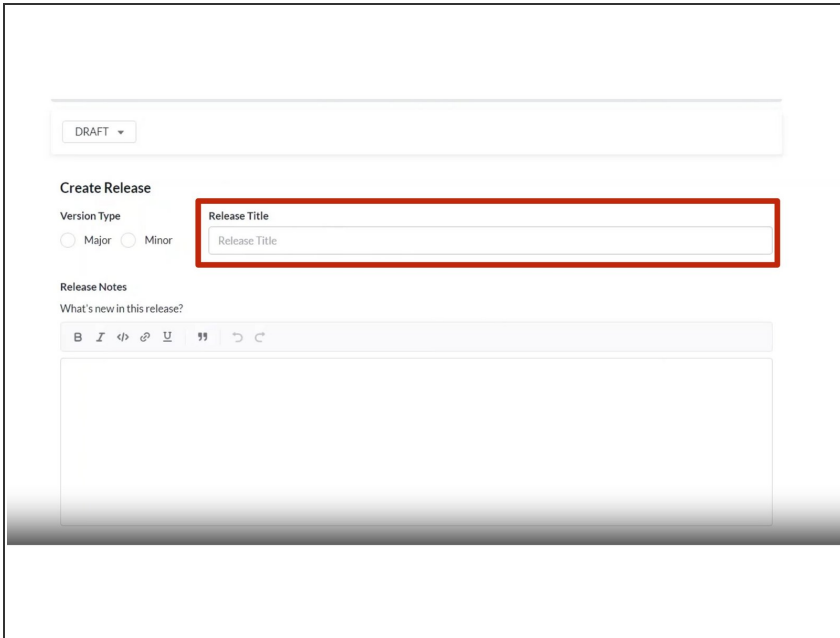

---

## INTRODUCTION

This guide demonstrates how to disable release titles on a page.

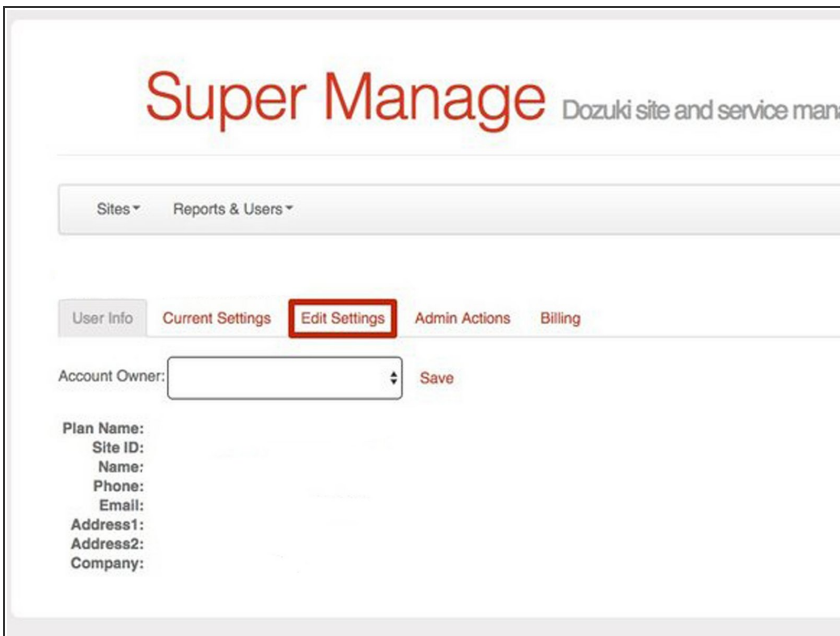

## Step 1 — How to Disable Release Titles

The screenshot shows the 'Create Release' form. At the top, there is a 'DRAFT' dropdown. Below it, the 'Create Release' section includes a 'Version Type' with 'Major' and 'Minor' radio buttons. The 'Release Title' field is highlighted with a red rectangle. Below the title field is a 'Release Notes' section with a text area and a 'What's new in this release?' label. The form is set against a light gray background.

- If you wish to disable the **Release Title** field on a page, you need to enable the **feature-autonumber-release-version-titles** option.

## Step 2

The screenshot shows the 'Super Manage' interface. The header includes the 'Super Manage' logo and the text 'Dozuki site and service manager'. Below the header, there are tabs for 'Sites', 'Reports & Users', 'User Info', 'Current Settings', 'Edit Settings', 'Admin Actions', and 'Billing'. The 'Edit Settings' tab is highlighted with a red rectangle. Below the tabs, there is a form with fields for 'Account Owner', 'Plan Name', 'Site ID', 'Name', 'Phone', 'Email', 'Address1', 'Address2', and 'Company'. A 'Save' button is located next to the 'Account Owner' field.

- Log into your site's Super Manage page.
  - ✦ For instructions on how to do this, please see [Logging into Super Manage](#).
- Go to the **Edit Settings** tab.

Step 3

feature-approvals-author-assign-approval-process	Allows Authors to assign Approval Processes to guides.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
feature-visible-upcoming-releases	Enables users to use an upcoming release without being assigned to it through a course.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
